6. Projects Undertaken at the Request of the EIC or Proposed to the EIC

Nothing to report.

7. Intelligence Research Techniques

Nothing to report.

8. Special Coordinating Functions of the Subcommittee

Nothing to report.

9. Evaluating the Role of the Subcommittee

The Subcommittee continues to be of considerable value as a medium of interagency exchange of intelligence evaluations. No formal program was undertaken last year and the activities of the Subcommittee were largely confined to discussions of intelligence data.

B. Future Program of the Subcommittee

The organization of DIA and the consequent reorganization of ONI, and the reorganization of part of the ORR office in CIA, has deterred the planning of a formal future program for the Subcommittee. Pending further development in organizational responsibilities and staffing of these offices, the Subcommittee plans to continue operation but without a formal program.
